## Interruptores e Pulsadores

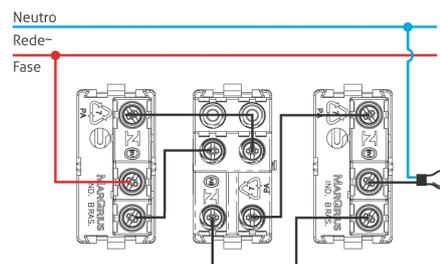

Interruptor  
Simples

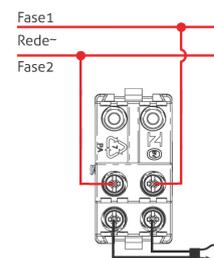

Interruptor Paralelo  
(Three Way)

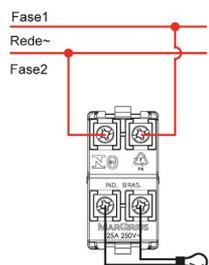

Interruptor Intermediário  
(Four Way)

Interruptor Bipolar  
Simples 10A

Interruptor Bipolar  
Simples 25A

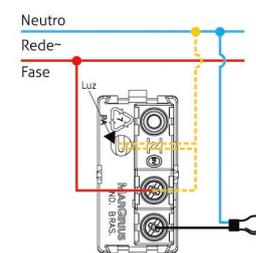

Interruptor Bipolar Paralelo

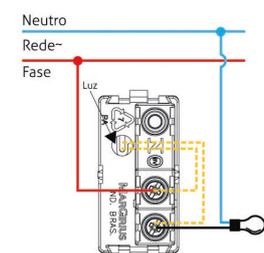

Interruptor Simples com Luz\*

Lâmpada Permanente

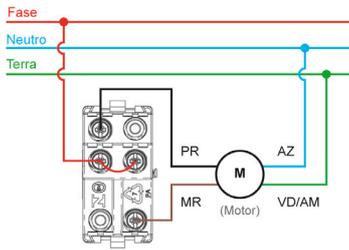

Lâmpada Piloto

\*Interruptores com luz podem ser ligados com lâmpadas fluorescentes ou de LED somente na condição "lâmpada permanente".

### Pulsador Duplo Reversível para persianas

Obs.: As cores dos cabos podem variar. Consulte sempre o manual do fabricante da persiana/cortina antes de instalar.

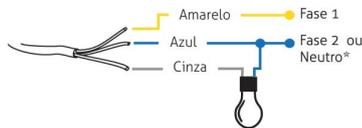

## Eletrônicos e Campainhas

### Balizadores Horizontais e Verticais

\*Dependendo do sistema elétrico local

### Sensores de Presença

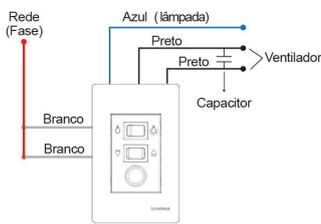

\*Dependendo do sistema elétrico local

### Campainha Eletrônica de 2 tons

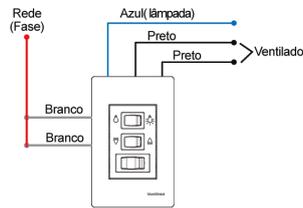

Observação: isolar os fios não utilizados (amarelo ou branco)

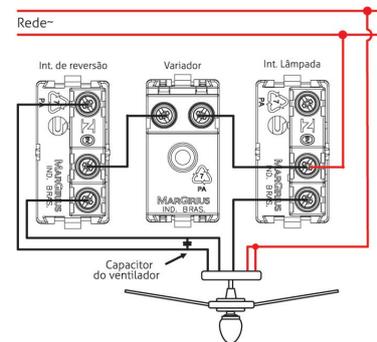

### Controle de Ventilador Modular com dimmer

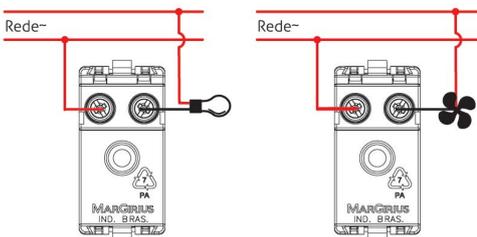

### Controle de Ventilador com 3 velocidades

### Conjunto Controle de Ventilador

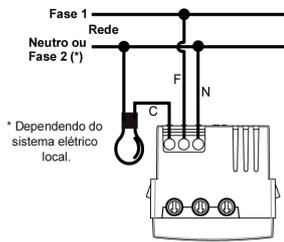

### Variador de luminosidade\* (Dimmer) ou variador de velocidade de ventilador

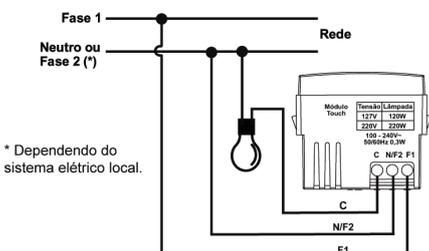

\*Somente para lâmpadas incandescentes ou halógenas.

### Sensor de Presença Micromodular

\* Dependendo do sistema elétrico local.

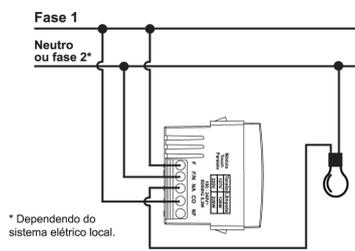

### Interruptor Simples Touch

\* Dependendo do sistema elétrico local.

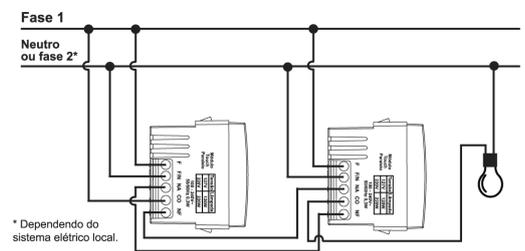

### Interruptor Paralelo Touch

#### Ligação simples

\* Dependendo do sistema elétrico local.

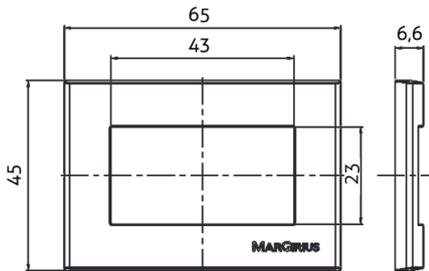

#### Ligação paralela

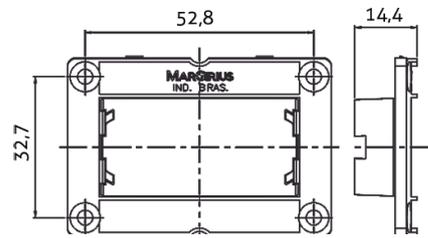

\* Dependendo do sistema elétrico local.
